

ACRRM's Seven Domains of General Practice

The curricula are structured around seven domains of general practice in the rural and remote context:

1. Provide medical care in the ambulatory and community setting
2. Provide care in the hospital setting
3. Respond to medical emergencies
4. Apply a population health approach
5. Address the health care needs of culturally diverse and disadvantaged groups
6. Practise medicine within an ethical, intellectual and professional framework, and
7. Practise medicine in the rural and remote context.
